You'll also experience the famous Thingvellir National Park, where you'll stand upon the crest of the Mid-Atlantic Ridge. In the afternoon, stop at the Lava Exhibition Center and delve into Iceland's past and present volcanic eruptions. Afterward, witness Seljalandsfoss, a rushing waterfall where you may walk behind the water for unique views from the inside out before continuing onto Vík. Drive, or venture on foot, into the stillness of rural Iceland in search of the northern lights. You'll enjoy three nights of searching to increase your likelihood of catching a glimpse of these elusive lights.\* (B, D)

**Day 4: Wednesday, February 18, 2026 Vík - Reynisfjara - Vík** Begin your day with journey to Reynisfjara, a volcanic sandy beach surrounded by basalt formations and home to thousands of nesting sea birds. Look out over the natural rock formations at Dyrhólaey, a small peninsula of volcanic origin towering over the ocean. Next, visit the Skógar Museum and discover its turf-built homes and artifacts. Afterward, stand in awe before the impressive Skógafoss waterfall, one of Iceland's biggest and most beautiful waterfalls. **The overall activity level of this tour is a level 3.** This means you're an on-the-go traveler. You don't want to miss a thing, so walking and standing for longer periods of time (1-2 hours) isn't a big deal. You can navigate hills and uneven ground, climb into various modes of transportation (tuk-tuk, cable car, Zodiac, etc.), and could possibly anticipate changes in elevation. You can expect some longer days balanced with free-time to recharge or set out on your own adventure. While you are searching for the northern lights, you will be walking and waiting outdoors. It is recommended that you wear sturdy non-slip snow footwear and warm clothing including thermals, hat, scarf and gloves. Sturdy footwear, ice crampons and waterproof jackets are required if you plan to walk in certain areas or approach the waterfalls.

If you require any special assistance while on tour, please make us aware at time of reservation so the necessary request form can be sent to your attention.

This tour takes place in the winter. You can expect varying weather conditions with brisk days and limited daylight. We seek to best utilize your time while on tour; to account for the potential for adverse weather, some activities or days may need to be altered, shifted, or cancelled. In addition, museum visits and shopping may be affected by observance of religious or local holidays.

Most natural sites such as waterfalls, beaches, and lava fields require walking on unpaved, uneven surfaces rendered slippery by ice and rain.

The Northern Lights Cruise departs from the port usually at 9:00 PM and finishes after 11:00 PM.

Due to long-distance travels to the Jökulsárlón Glacial Lagoon, you may expect free time after 1:00 PM for lunch on your own.

\*The northern lights are in the Northern Hemisphere from September through April and are only visible when the sky is clear and free of clouds. **As this tour is weather dependent, sightings of the northern lights are not guaranteed.**

\*\*The northern lights cruise is weather dependent and may be postponed or cancelled in the event of adverse weather or sea conditions.

Hotel check-in will be immediately available on your arrival day. It does not apply on pre-arrival days. If your flight arrives in the early morning, breakfast will be included once you arrive to your hotel.

Single accommodations are limited and are available on a first-come, first-served basis. Single rate subject to change based on availability.

Coaches which may not be lavatory equipped may be used on this program. In this case, stops are made during travel periods. Due to the remoteness of the sites we visit, the travel time between restrooms may be up to 2 hours.

### Experience It! The Northern Lights

Each year, during the winter months, travelers journey to Iceland and venture out into the dark to see the magical but elusive northern lights (aurora borealis). This natural phenomenon is the product of collisions between electrically charged particles from the sun that enter the earth's atmosphere; the results are spectacular. Streaks of colorful light appear across the sky. The colors can vary from white to pink or purple and, most commonly, green. It is known that the best time to witness the lights in Iceland is from late September to mid-April, when the nights are the longest. This light show is truly dazzling and worth the pursuit.

A scenic view of a town in Iceland, featuring colorful houses with red and white roofs, a prominent church with a tall spire, and a large, snow-covered mountain in the background. The town is nestled in a valley, with the houses packed closely together. The church is a dark building with a tall, white spire. The mountain in the background is a mix of brown and white, with snow covering the upper slopes and the peaks. The sky is a pale blue with some light clouds.
